Mutscher-Heatly Doomed Says Christian

Legislative Reform

(An Editorial)

Representative Tom Christian of Claude underscored the need for an opposition party in Texas Tuesday as he spoke before Canyon Rotary Club.

He outlined the dictatorial power of the Mutscher-Heatly combine sometimes used by the speaker and the appropriations committee chairmen with vicious vindictiveness against those who give them the slightest opposition.

Here at Canyon we have had a taste of the appropriation committee chairman's whip. He used his power to cut appropriations requests for higher education because he doesn't like the way state schools are being operated.

Christian says the people in power in the legislature during the past session were bent on preserving that power rather than serving the people of Texas.

The redistricting bill is ample proof of this statement. The representative from Claude says Mutscher and Heatly power is doomed. We hope so.

He also says it's time for the citizens of this state to open the windows and let the sunshine of good government in. We concur.

It is high time we quit talking about reform in state government and start electing people with the ability and courage to help reform it.

Post Office Out, Postal Service In

The inauguration of the new United States Postal Service is today and is being celebrated in Canyon with a Postal Service Day coffee, according to Post Master Lee Roy Moreland.

The public is invited to visit the local post office and meet the postal service employees.

Post office visitors will be given a souvenir envelope imprinted with the old and new insignia of the Postal Service.

The envelope will also be made available in limited numbers as a first day cancelation, for the cost of an 8 cent stamp. This will be

The Post Office is no more. As of today, the ole post office is the new Postal Service. Lee Roy Moreland, Canyon's post master, shows off the free souvenir Commemorative Envelope and a First Day Cover with a new Commemorative Stamp which will be available during festivities today from 8:30 a.m. to 5 p.m. Coffee will be served and the public is invited to come by the Postal Service Office to celebrate Postal Service Day.

Dictatorial Power Abuse Is Charged

BY TROY MARTIN

Gus Mutscher won't be re-elected speaker of the Texas House and Rep. Bill Heatly's power will fade like the morning dew, Rep. Tom Christian told members of the Canyon Rotary Club Tuesday.

Christian accused Mutscher of abusing power almost to the point of dictatorship. He said Heatly, possibly the most powerful man in Texas because he is chairman of the House appropriations committee, has his own strength tied up with that of Mutscher.

He noted that Mutscher appoints the 46 committee chairmen and these in turn appoint vice chairmen.

"Legislation not in the speaker's program has little chance of seeing the light of day and his program is not always best for the people," Christian went on.

Christian said the Rules Committee made up of chairmen of important committees sets the House calendar and a representative not on the team simply may not get his legislation on the calendar.

"The power of the speaker is again reflected," he asserted.

Alluding to the stock scandals which shook Texas, Christian said power in Austin is tainted by greed.

Christian told the group that there was an attempt by the state printer to censor his news letter because of derogatory remarks he had written about Mutscher and Heatly.

"I don't think the state has any business in the printing business, anyway, but if it is, then it should be available to legislators trying to keep their constituents informed," Christian affirmed. Christian said he subsequently had his news letter printed by a private firm at his own expense.

He suggested that as a starter a House speaker should be limited to two terms. Mutscher is serving his second.

He also recommended that the pledge system be abolished and the speaker be elected from the floor by a majority vote.

"No candidate for speaker should demand a pledge with which to batter the membership into submission," Christian declared.

He said a campaign for speaker of the House often costs as much as $100,000 and that a public disclosure statute is badly needed. "This is a hard race to run on a salary of $4,800 and lends itself to misconduct," Christian asserted.

He noted that the Conference Committee added $22,000,000 to the appropriations bill this year — funds not even discussed in either house.

He strongly recommended that the functions of this committee be restricted to adjusting differences between the two legislative houses.

"The people are justified in their lack of trust of the state government," he went

Workers Assembled For Liquor Petition

Work on a petition to bring about a liquor by the drink election in Randall County Justice Precinct 4 will begin some time after July 8, according to Mrs. Dorothy Meehan who will circulate the petition.

Mrs. Meehan said she has 150 workers lined up and will begin collecting the necessary 2,918 names on a petition to bring the question to a vote after a similar election July 8 in Potter County Precinct 1.

Mrs. Meehan and her husband, Jess, operate the Personality House restaurant on Western. She said she thinks liquor by the drink is necessary for the survival of Randall County eating places.

Sheriff L. S. "Slim" Johnston said that if the proposition carries law enforcement will become more expensive for the county.

Commission Hears CATV Plea Tonight

City dads will hear a request for a CATV franchise and will discuss future city park development at a regular meeting tonight at 7 o'clock in the Canyon Community Center.

Kenneth Wheatley of TV-2 Company of Kerrville will appear before the commissioners on the franchise request, according to City Manager George Loudder.

Other business includes the 1970-71 audit report, and consideration of plat recommended for approval by the Planning and Zoning Commission.

City commissioners will also call a public hearing on zoning of properties in Pioneer Estates.

Now It's Legal

Funds Ask For Kids Inc.

Randall County commissioners Monday were told that it is now legal for the county to participate in financing Kids Inc. activities and at the same time were presented with a request for $2,400 for that purpose.

Representing Kids Inc., from Amarillo were Earl Smith, Chuck Allen and Arthur Fields.

Smith told the court that Potter County has agreed to contribute $6,000 and noted that Randall County children make up 40 percent of the participants in the Amarillo program.

He said the budget for the program comes to $75,000.

Smith told the court he has been talking to Dr. A.J. Luquette who heads up the Canyon summer recreation program and thinks Luquette will ask the county to participate in its funding. The city of Canyon already participates in the program which draws participants from over the Canyon Independent School District.

Smith said he has been talking to Panhandle Regional Planning Commission and hopes eventually to get a regional concept for Kids Inc.

Glenn Dowlen noted that Randall County has a growing population but little taxable valuation and therefore less tax money to spend.

"Potter County has the industry and the valuation," he declared.

"This year we will touch the lives of 15,000 kids," Allen told the court. Smith said Kids Inc., has only three full time staff members.

Canyon teams participate in the Kids Inc., football program.

Until a few years ago Randall County participated in the funding of Kids Inc., until the court was notified that spending funds in this manner was illegal. Smith said he had been advised by County Attorney George Dowlen that such funding is now legal.

Commissioner John Fulgenzi told the three that he is aware of the job done by Kids Inc., and that an answer to their request will be forth coming in two or three weeks.

In other business, the court in a split vote agreed to use a 1958 lifetime schedule in assessing taxes on pipeline in the county.

The schedule calls for 60 percent of the 100 percent value of the pipeline to be used as a base and that 25 percent of the 60 percent be

Vehicle Titles Necessary

Titles for autos or grain trucks are necessary to register the vehicle, according to Audrey Bruse, Randall County Tax Assessor-Collector.

Mrs. Bruse said the Texas Motor Vehicle Division requires that titles be presented at the tax office and that preprinted registration forms can not be used to obtain a license.

"This is a busy time for most farmers and we do not want to cause them any inconvenience in having to make second trip to bring their titles in," Mrs. Bruse said. She noted that many farmers are bringing the preprinted registration forms instead of the vehicle titles.

Sights Busy Year

District Governor Flys

BY MARGO CRABTREE

Canyon has a flying governor — as of today.

Dr. T. Paige Carruth takes office today as Governor of District 573 of Rotary International. And he's becoming well-known as the flying governor.

In his Cessna 150, Carruth will visit some 47 towns in the district at least once in the next year — and he expects to be in most towns two and three times. If he and the plane hold out.

Carruth, who has his hands full as Vice President of Student Affairs at West Texas State University, figures he will only double his load the next year. And a quick glance at his desk would verify that prediction.

The territory for which he will be responsible is some 400 by 225 miles in size, and includes 47 Rotary Clubs, It runs from the top of the Texas Panhandle southward to Midland, Odessa, and Big Springs.

"And I knew I would need an airplane to make all that distance," the new governor explains, as he studies his itinerary for the next three months.

It runs something like: hops from Perryton one day, to Littlefield the next, to Canyon, to Brownfield to Amarillo — and hopefully back to Canyon to collapse.

But the year holds hope and challenge to the college administrator.

"We plan to do three things during the next year," Carruth declares. "I want to emphasize youth within the clubs, I want to increase the membership and extend Rotary to more people, and I want to upgrade the types of services sponsored by the clubs on the community and international levels."

Carruth expresses some concern that civic organizations are becoming "alms givers" instead of actually taking an active part in community projects.

"Members feel it is easier to just write a check instead of grabbing a project and really making it go," Carruth notes.

In fact, he feels many clubs are full of apathy.

"They meet, eat, burp and go home," he complains. And he believes every community has many projects that could be developed and increase community participation.

"Maybe a community needs a library, or a swimming pool or new baseball

(see FLYING, page 10)

Paige Carruth is the flying governor from Canyon. Carruth, newly named Governor of District 573 of Rotary International takes office today and will spend a year visiting each of the 47 clubs in his district. His Cessna 150 will be the mode of transportation for him and his wife as they make the official visits.

Idle Acreage Grazing Free

New Drouth Help Available

Two more measures designed to help farmers because of the drouth were undertaken by the Randall County ASCS here this week.

Requirement of a financial statement for those participating in the emergency livestock feed program was dropped Monday.

Haying and grazing on all set aside acres (acreage taken out of production) is now free of charge. This includes irrigated acreage and both acreage in the annual and long-term programs.

Donald F. Lloyd, executive director of the county ASCS office here, said two applications have been received for assistance through the emergency feed program. These will go to the county committee which meets Thursday.

Lloyd said some farmers made payment where required for grazing at the same time they made application. This will be refunded beginning Friday, he revealed.

Lloyd noted that $65,000 was made available for emergency chisling in Randall County and expenditure of $52,000 was approved. Payments totaling $20,000 already have been made.

COVERING FUMBLES
by
Dean Mitch Jones

To some people "cooperate" means, listen carefully to what I say and do it exactly as I am dictating it to you; — and accept the blame if it does not turn out well.

This program terminated Wednesday.

Lloyd said it is doubtful that many Randall County farmers will be eligible to participate in the emergency livestock feed program.

Four qualifications must be met to qualify for emergency feed grain. These are:

1.) Sufficient feed (including hay) is not available for livestock for the authorized period.

2.) A serious loss of the farmer's crops must have been suffered because of the emergency.

3.) Feed purchases are larger than usual because of the emergency.

4.) It would be an undue financial hardship to obtain feed through normal trade channels.

Undue hardship is deemed to exist only when the applicant's financial resources would prevent his obtaining required feed through normal suppliers without imperiling continuance of his farming operations, defaulting on existing obligations, resorting to unsound borrowing or being forced to dispose of his livestock. The program is slated to run through Sept. 30.

Help for those who can qualify is substantial.

Grain for primary or breeding stock will be available at $1.47 a hundred and at $1.96 a hundred for other eligible livestock.

Officials at Consumers Fuel & Elevator Association said grain is being retailed there at $2.70 a hundred.

Lloyd said said any approved applicant who prefers may purchase feed grain as a component of a processed feed from stocks of an approved dealer.

FROM THE CANYON RIM

I attended the Texas Press Association convention in Austin over the weekend.

Most memorable part of the trip was a visit to the LBJ Ranch at Stonewall. We stopped at Johnson City for a visit in the boyhood home of Lyndon Johnson.

It's a modest house located in a sleepy village about 40 miles from Austin. A look at the countryside is enough to convince you that its most important product has been Lyndon Baines Johnson.

Front page of the Johnson City newspaper is prominently displayed on one wall of the living room proudly announcing the results of the 1964 Presidential election. I was gratified to learn that I'm not the only one who sometimes makes mistakes.

The editor's column lists Johnson as the thirty-seventh President of the United States.

We went on to the birthplace on the Perdenales. It had been oppressively hot in Austin and Johnson City. Out among the trees a cool breeze was blowing off the river.

Expensive bulls grazed on irrigated pasture in the distance.

The birthplace had fallen into ruin but was restored by the US Parks Service.

The caravan of some 200 people wound up at the ranch. There is still the smell of power about the white ranch house with a huge barn in back sheltering helicopters and electronic equipment.

At the front yard gate stood Lyndon Johnson greeting his guests. He refused pictures at that point but later volunteered to have a picture made with anyone who cared to pose with him.

With Texas hospitality he offered beer and soft drinks to the thirsty publishers at the same time admonishing them to use the waste receptacles provided by the swimming pool.

"I don't want Lady Bird to come home and find a bunch of cans in the front yard," he confided half serious. Mrs. Johnson was in Colorado Friday. The President said she was out there on a beautification mission.

Johnson gathered his guests about him and in quiet tones unveiled his personal plans for the present and future. He said he hopes to be instrumental in preparing young people for running the government.

He said classes come out to the ranch. He and sometimes an important guest such as the former Prime Minister of England talk for a few minutes and then allow the young people to ask questions.

Johnson talked to us for about 15 minutes and then invited us on a guided tour of the ranch.

"I think we better leave right now," he said, "before someone wants something more to drink. We've run out."

Johnson led the tour in a station wagon which he drove himself. His life is still hectic and he is still protected by a bevy of Secret Service men.

During the tour he received several calls from Austin and Washington, tongue lashed some of his employes and I understand he later fired two men for shortcomings during the tour.

Korkye and I rode with the Dave McReynolds from Stratford. We were not exposed to the important man's ire.

We saw scores of deer frolicking in the late afternoon's relative cool of the pastures. It was a high point of the trip.

Our party arrived back at a small theatre and heard Mr. Johnson talk some more. He invited us to come back and bring our families any time. He was a most gracious host.

We walked down a path to a grove of trees and were served barbecue and treated to dancing by Heloise to the tune of a German band.

* * *

Saturday noon I sat at the table with Jake Pickle, 10th District Congressman; Attorney General Crawford Martin and Ben Barnes, the lieutenant governor.

Ben said he had read my columns on his proposed trip to Europe to talk to the North Vietnamese, the Viet Cong and the Russians.

The trip has been cancelled. Barnes said he was unable to get an audience with the enemy. But I'm always going to think that the fury of the American Legion and its outspoken commander, Bill Hester of Waco, had something to do with the cancellation.

Barnes has an uncanny political feel and he figured out right away that Texas veterans as a whole might look on the junket with a jaundiced eye. Veterans are voters and influential ones at that.

Anyway, the trip will not come off.

Letter To The Editor

Mr. Troy Martin (editor)
The Canyon News
Canyon, Texas 79015

Dear Mr. Martin:

When looking through The Canyon News today, I read this excerpt from your statement of intent and description on page four of your publication. It read:

"Any erroneous reflection upon the character, standing or reputation of any person, — which may appear in the columns of this paper will be corrected upon being brought to the attention of the editor."

Sir, I realize your duty as a newspaper manager commits you at times to describing events under unusual circumstances, but your display of "cub reporter" eagerness at a recent Canyon Crusade for Christ service was unprecedented. Never before in the short time I have lived as a christian heard of any one person publicizing an evangelical service to the point of taking photographs during a period of invitation to make commitment and rededication to our Lord.

So, I can only say that in my opinion, you have infringed on the right of Jesus, your fellow christians (and I am assuming you are a christian as you did offer generous assistance in the publicizing of the crusade), and yourself, by not being of reverent nature, hence hindering the work of the Holy Spirit.

I only ask that you back up your statement of intent and upon offering your material to the public, not only apologize to Jesus, but to the public as well.

Yours in Christ,
Stan Harlan

(Ed. Note: I had received prior permission from Ed Robb, the evangelist, to take pictures. Most of the pictures made were given to Mr. Robb for use in publicizing his efforts in other communities. I doubt that anyone who came during the invitation was ashamed of being there.)

Mayors Praise First Night Of 'TEXAS'

As the sixth season opened for the musical drama "TEXAS" mayors from across the Panhandle area were asked to comment on the show.

Deaton Rigsby of Lubbock stated: " 'TEXAS' has scored again! Not just a play or production, but an experience — uniquely adapted to its own stage, props and setting. Bring the whole family, rated Great!"

"The historical drama 'TEXAS' is a most enjoyable experience, and I urge every citizen to take the time to come and enjoy a wonderful production," stated Troy Jones of Silverton.

Mayor J. W. Flores of Stratford commented that the show as "just magnificent; I enjoyed it very much."

J. B. Young and his sister Mrs. David Guest of Turkey stated that "We enjoyed the hospitality offered the mayors of the Panhandle. The production is as our pioneer parents and grandparents told us. The production was wonderful and the acting very good. Thanks for a wonderful evening."

Tulia mayor W. V. Swinburn said that it was "a beautiful performance. The fact that there was no time lost in performance was most commendable."

R. A. Armitage of Vega, an amphitheatre groundbreaker, stated "I enjoyed the production as much tonight as I did 6 years ago. Especially appreciated that 'Texas Beef' promotion by Uncle Henry! Sound effects are great."

Kenneth Dale of Memphis said, "Excellent first night. This is the third showing I have attended. I seem to enjoy each performance more."

Newly-elected mayor of Lake Tanglewood, James A. "Doc" Potts, said, "Each year I'm more impressed with the performance and story. It was great."

Charles Hastings of Dumas said "the fourth time to see it. It gets better each time."

D. E. Boliver of Hedley commented, "A very outstanding performance in a genuine Texas setting, surely unique in its field."

Parley Myers of Olton stated simply "wonderful", while Mrs. B. B. Winkels, wife of Howard Wick's mayor, noted "the dancing was the best ever."

Sunray's mayor Harold Henderson summed up his comments with, "It's difficult to put into words — Everything was so outstanding, the acting, the costumes, and the scenery, which was provided so beautifully by the canyon. The sound effects were fantastic and the finale was a very moving experience. The beauty of the performance makes us aware of what a privilege it is to be a Texan and an American."

Jake Merrell of Quitaque noted "Music, sound, and lighting are excellent. Thoroughly enjoyed the entire production."

"TEXAS" runs nightly, except Sundays, through August 28 in the Palo Duro Canyon's amphitheater. A special July 4th performance will be held.

For tickets or further information write "TEXAS", Box 268, Canyon, or call 655-2182.

Our World

BY ANN BROWN

Only 195 years after our forefathers sacrificed their lives and their fortunes to give us the greatest nation that has ever graced God's earth, the "In" thing is to disparage God, Country, parents, and patriotism. But don't be misled. The majority of the 204 million people in the United States of every color and creed are still proud to be Americans.

Admittedly, proud Americans are ashamed of the un-Godliness in America. But shall we sit idly by while no-win wars, foreign give-aways, exhorbitant taxation, welfare termites, self-serving politicians, crooked courts, pornography, racial violence, child abuse, drug abuse, alcoholism, and general lawlessness destroy us? Shall we forsake our beloved homeland? Or shall we try to preserve our nation?

No doubt the disciples of Jesus were ashamed of the self-righteous Pharisees, bigoted Sadducees, greedy Publicans, beggars, slavery, stoning of women, infanticide, leprosy, racial injustice, robber bands, Judas and their own failures. But did they forsake Christ and His Church?

Is there a perfect nation anywhere?

Has this world known perfection since the day Eve chose to follow Satan instead of God?

Some 10,000 Americans are migrating yearly to other countries. There has been very little publicity on the fate of our expatriates. A little research in this area might be helpful.

One self-made man in our area started with a little hamburger stand and made a fortune in the restaurant business. Disgusted with taxation, thieving employes, discourteous patrons, and conditions in general, he sold his extensive holdings and left the country.

Three years later he came home and opened a little hamburger stand not far from the city block of thriving businesses he once owned. He announced the opening of his new business with an open letter in the local paper:

Dear Friends and Former Customers:

I was fool enough to leave, but I was smart enough to return. Come to see me at ———.

When he died, he again owned the biggest and the best restaurant in town.

If good Americans are foolish enough to let the flaws in our country blind us to its beauties and its blessings, we are the losers. And yet if we accept cancerous conditions in our society as inevitable, and make no effort to correct them, we won't have to leave our Country — it will leave us.

First we should remember that this is God's world and that He is depending on His people to keep it decent (II Chronicles 7:14).

It is a sheer waste of time to sit back and blame the un-Godly, lawless element for world conditions. God never said society was dependent on them.

There are four primary ways that God reveals His will to man:

1. Through the Scriptures,
2. Through providential circumstances,
3. Through the convictions of our own better judgments and
4. Through the conviction of the Holy Spirit on our hearts through prayer.

Careful study of the history of our Constitution will reveal that this was the method followed by our founding fathers in the construction of that matchless document.

If we would preserve this great nation that our fathers gave us at such a tremendous cost, we must return to the Word of God which guided them; there is no other way. Unfortunately, however, the Bible is the best-selling, least-read book in the world.

It is still God's world. If we stay in orbit, we must obey the rules. How can we obey rules we do not know?

Garner Boys In Tourney

Bryan and Brad Garner, sons of Mr. and Mrs. Gary Garner of Canyon, placed third and second respectively in the Texas-Oklahoma Junior Golf Tournament in Wichita Falls last week.

Bryan, 12, was third shooting a 74 in the second day to put him in the finals. Brad was second in the third flight in the 14-15 age group.

Bryan also won first in the chipping contest for the 12-13 age group.

Neighbors Pitch In And Help

Good neighbors are still around Randall County.

And Mrs. O.O. Henry found out the nice way last week.

Eight local farmers appeared at the Henry farm Saturday, June 19, with plows and determination. And by evening the some 400 acres were plowed and 318 acres planted with maize.

At noon, Mrs. Henry and her daughters, Mrs. Billie White and Mrs. Bette Henry, provided lunch.

Mrs. Henry lost her husband May 29, and she had been concerned about how she was going to manage the summer planting and plowing.

And good neighbors provided the answer.

"I don't know what I would have done," she declared this week. "It makes you feel good to know good neighbors are still around."

The farmers who helped on the Henry farm, located 15 miles southeast of Canyon, were Tom Henry, his son Ken Henry, Bob Henry, Lewel Johnston, Carl Bryan, Glenn Dowlen, Jackie Schiller and Mrs. Henry's son Joe.

For Area Kids

Upward Bound Opens Doors

A taste of education and what it can mean to a kid who thought he didn't have a chance for it is the goal of Upward Bound, which begins its summer session July 11 on the West Texas State University campus.

Roger Scott, director of the Upward Bound Project, said the program, designed to motivate youngsters in high school to acquire higher educations, will attract about 50 students from this area.

Upward Bound at WT reaches students from towns within a 50-mile radius of Canyon.

"We bring these students to the campus, put them in dorms for six weeks, and let them experience what it is like to be on a college campus and involved in higher education," Scott explained of the program.

He pointed out that the high school juniors and seniors who attend the session are placed together in dorms along with college students as tutors and counselors.

"We find they communicate very well with these students on a one-to-one level," he continued.

Scott explained that students on the program last year as seniors will attend summer school as regular freshmen, and will not live with the high school students during the summer school.

"They are on their own, but we do provide them with tutors and monitor the classes so we can see if a student is taking proper notes and getting what he should out of the course," Scott said.

The program is provided for students from limited income families, and is free to them. In fact, Scott noted that during the summer session, students are paid $7.50 per week to cover their basic necessities.

The Upward Bound Project is geared to the student with academic potential, but who has been constrained by his background, or who has not reached his potential through conventional educational avenues.

"Generally, the potential that the student possesses does not show in traditional educational measurements, such as standardized test scores or grades, but may be discovered more readily through the intuitive judgments of those people who know him," Scott said.

"The Upward Bound boy or girl is one for whom a college education may become possible if the student is given experiences and instructions designed to build on the strengths which the student possesses," he continued.

Instructors for the summer courses will consist of college professors, local high school secondary teachers, and instructors at-large from the area.

"People who work with these youngsters must be sympathetic to young people in general," Scott emphasized.

He pointed out that the courses are not as structured and are less formal than most educational classes.

The summer session is only part of the year-round program budgeted through the Health, Education and Welfare Department and co-sponsored by WT.

During the year, students meet for four hours each week at nights in a class room atmosphere, but again, with a less formal structure.

"We also take care of corrective health problems these students have," Scott noted. He said glasses are provided and teeth corrected for the students.

"Good health and good thinking go together," Scott continued.

Scott is assisted by John Duncan, former counselor with the Amarillo Public Schools.

Scott is a graduate of Texas College in Tyler and has done graduate work at Prairieview A&M and WT. Duncan graduated from Abilene Christian College and has a masters from WT in education.

"Our main goal is to give these kids a taste of success," Scott said. "Success is really important, because once they taste success they see that they can do it again."

Bandsters Seek Jewelry

Old jewelry is the prime target for Canyon High School Eagle Band members.

As part of the '72 Vienna, Austria trip campaign, bandsters are knocking on doors and calling friends seeking jewelry that can be polished up and repaired and then sold. The money-raising project is one of hundreds planned this year to help collect money to send the band to Austria next summer.

Persons with jewelry to give to the band should bring it to the old Bellah building on the square, or call Mrs. Gary Garner at 655-2495, or Mrs. Ada Crager at 655-4709, to have the jewelry pieces picked up.

Mrs. Garner, chairman of the money raising projects, said more stamps are also needed. Band parents have requested that every person in Canyon give at least one book of stamps to the project.

The band also has been given the concession stand proceeds at the July 5 celebration in Conner Park, and band members will man the booth, according to Mrs. Garner.

She announced this week that items will be on sale soon at Bellah's on Saturday mornings from 9 to 12 o'clock.

Troop Returns From Excursion

Boy Scout Troop 66 returned Friday from a four-day excursion in the Davis Mountains where they climbed Guadalupe Peak and El Capitan Mountain.

Those making the trip were Keith Burrows, Mark Collier, Mike Mebane, Drew Williams, Roy Markham, Tom Trew and Scoutmaster Denny Park.

Mrs. Dunn Is Hostess For Meeting

Social Pioneers met Thursday in the home of Mrs. C.W. Dunn, with Mrs. Dunn presiding.

Mrs. H.C. Gentry gave the devotional and read from the Bible.

Mrs. Fred Marshall presented the program. Members read poems.

The secretary sent flowers to the funeral of Mrs. Roy Davis. The club planned a picnic for September at the Girl Scout House.

Refreshments were served to 11 members and one visitor. Those present at the meeting were Mmes. Gentry, Eva Curb, Adda Lyles, Ona Stewart, Frances Northcutt, Lewis Harvey, P.T. Fain, J.P. Hammonds, Marshall, Dunn, John Hilgenfeld, and a visitor, Mrs. Les Curb of Abilene.

The next meeting will be the September picnic.

Canyon Capers Dance Monday

Canyon Capers Square Dance Club danced to the calling of Knox Day Monday night at the Junior Livestock Building.

Leroy Pitt called a tip.

The hobo supper planned for July 12 has been postponed until September.

Anyone may attend the Canyon Capers Square dances each Monday night at the Livestock Building.

Umbarger News

BY SUSAN DOLLE

The Fourth of July will not pass unnoticed in the Umbarger community this year. Two festivities are being planned. By word of mouth, telephone, and by cards sent to those far away, students of Umbarger High have been notified of the school's reunion which begins at 12:00 noon Sunday in the parish hall. 500 individuals are expected to be on hand, according to the planning committee which is headed by Mr. and Mrs. Joe Artho of Hereford. The committee sent 175 invitations.

Special guests at the reunion will be past teachers of the high school, Sister Martina and Sister Mary Dympna and others from the order of the Sisters of Mercy.

The re-union and covered dish dinner will be followed by renewing old acquaintances and visiting. Anyone who has old pictures of interest is asked to bring them along.

Later Sunday evening, Pistols and Petticoats will hold its regular square dance session and will try to top the great attendance at last week's graduation supper and dance. Following the dance, the club will sponsor a fireworks display on the church property. Chairman of the display is Melvin Wieck.

Welcome to Rev. Alan, a Benedictine monk who is substituting for the pastor at St. Mary's Catholic Church for the next few weeks. Father Alan is from St. Meinrad's Seminary, located in the southwestern part of Indiana.

Howdy to Spec. 4 Dwayne Gerber who recently returned from Viet Nam in time to help his parents with wheat harvest. Dwayne is enjoying a 45-day leave of absence; on July 31 he will report to Fort Carson, Colorado. We are proud of Dwayne's contribution to his country and thankful he is back home.

Tom Raef has been enjoying a visit with his family for several weeks. He will return to Bernalillo, New Mexico July 6.

Displaying more than her usual amount of enthusiasm and energy, Deborah Ramaekers is collecting just about anything to help the Canyon Eagle band gain a trip to Vienna. It will be an unforgettable experience for Deborah and the other band members; we can ride on their shoulders by helping them get there. They now need trading stamps of any kind or amount. Deborah will also pick up old jewelry which band members will remake into usable items to be sold at the Tri-State Fair in September. If determination has anything to do with going, the Canyon band will make the trip easily.

BY PAULINE HEFLEY

Happy Anniversary to the Chet Smiths on Arden Road who celebrated their 28th.

The Frank Hansons on Euclid recently had Mr. and Mrs. Howard Singleterry from Tampa, Florida as houseguests. Mrs. Singleterry is Frank's niece.

Congratulations to Jane Taylor who received a second place medal at a State Solo Ensemble Contest held in Austin. Jane and her mother, Mrs. Lawrence "Joan" Taylor, motored down on a chartered bus full of Dumas students and Mrs. Taylor played the part of one of the adult sponsors.

Mack and Virginia Allison made a trip to Rotan to visit with Virginia's folks. Her father, Mrs. Charles Starnes, had undergone surgery and is reported to be doing better now. Lots of good wishes to him.

Sharon (Smith) Liles was the recipient of lots of pretty things at a wedding shower given for her.

Made a boo boo last week — the big 4th of July celebration to be held in Canyon on the evening of the 5th is being sponsored by the Canyon Chamber of Commerce and the Canyon Band Parents Club will sponsor the Concession. Now all you people tootle on down and let's visit and see the fireworks display.

Mr. and Mrs. Ted Walker motored to Bartlesville, Oklahoma over last weekend to visit with Ed and Hattie Blower. Ted reports they went fishing — caught nothing — the wind blew and it was hot and dry — sounds like the Panhandle of Texas to me.

Welcome back to the Gene Howe area to the M. A. Boyce, Jr., family who have resided in Jasper, Texas and Ruston, Louisiana for the past year. Our kids will remember Mark and Angela.

Roy and Joan Forehand went to a Forehand reunion in Fort Belknap, that's down by Graham. There were about 85 to 90 bodies there and they came from six states, of course the Forehand kiddoes were along too.

Then Roy and Joan motored down to Austin to Jester Hall on the campus of the University and attended the Annual Workshop for Personnel of Homes for Children that is sponsored by the University of Texas School of Social Work. There were around 400 in attendance. They took a tour of the Capital, etc. They report a good time.

By the by, you ought to hear that Roy on the ukelele — he and Joan sang and played a little ditty for us the other nite. If Roy had just a little darker tan, one might think Don Ho had migrated to the Mainland.

Happy Birthday to Johnny Boyce who celebrated his 9th last week.

Mrs. Bill "Cora" Team has been residing in Northwest Texas Hospital recently and having some tests — hope she is doing fine now.

Welcome to the Gene Howe area to Mr. and Mrs. Kenneth Day and son Scott.

Sherry and Linda Ford are home after three weeks in Tulsa and Durante, Okla. Understand they took their first bus trip by themselves — bet that was fun.

Another mommie in our area is going to be visited by the stork — you'll never guess who!

Saw Lyda Freeman at the ballgame the other day — said she didn't have any news but they sure need a new air conditioner — don't care if its new or not.

Speaking of ball games — those Lepricons beat Avondale 61 to 7 and then beat St. Joseph's 21 to 19. Congrats!

Overheard James Keith and Johnny Hicks talking at the ballgame recently, Johnny was listening more than talking, he sounded like a bullfrog. Me and James wanted to stretch him out and anoint his head with oil and say a prayer but he kept insisting he wasn't in any pain — anyway, back to the story, it seems as though James has purchased the Amarillo Fire Extinguisher Service and is now able to offer fire extinguishers for residential and commercial dwellings. Lots of luck to you James on your new venture.

Coach Buddy Guin and his lovely wife, Georgia, have accepted a position with Clarendon Junior College and will be dorm parents for the boys' dorm. We sure hate to see them go and that will be our loss and Clarendon's gain. Lots of luck to you and keep in touch.

Dr. Everett Howard, George and Mac McCurry motored up to Meredith Lake to do some fishing. They caught 14 pike, 2 sand bass and one channel kitten.

Larry Carter, son of the Virgil Carters, had a horse fall on him and had to have 15 stitches taken in his knee. Says he is going to be fine and we certainly hope so.

The George McCurrys have their daughter Angelia Lamb and granddaughter Misty visiting with them from Ft. Worth. Angelia's husband, Ricky, is in Viet Nam. We sure hope they enjoy their stay here. Speaking of the MucCurrys, George recently went to Philadelphia, Penn., to visit with his cousin, Geno Merchetti, who is an ex-defensive left end for the Baltimore Colts. If we can ever get Mr. Merchetti down to Texas, we'll get an interview with him.

Happy Birthday to Diedra Carroll who is now 10 years old.

We're sending lots of luck to Nobie Cates, who bused over to Albuquerque and flew from there to Orlando, Florida. He is now in the U.S. Navy for four years. We'll sure miss him around the neighborhood.

The Hudson Holmes motored up to Salt Lake to visit their son and daughter-in-law Dewayne and Cordilia Holmes. Understand they had a delightful trip. Incidentally, we have received word that Mr. Holmes will have his barber shop in one of the new bank buildings upon completion.

The Bev Camps went to Six Flags Over Texas and then on down to San Antonio to visit with Mr. and Mrs. Bill Crawford. While in San Antonio, they took a tour through the Alamo, went by some used book stores and some quaint little shops and also by the San Saba Mission on the way back.

Kay Smith finally has a job.

Mr. Gilbert Walker said he didn't have any news but he is feeling fine — we're happy about that.

Mr. and Mrs. Bill Harp and son DeWayne recently tootled down to Texas A&M at College Station in order that Dewayne might take some tests. We certainly send our congratulations to DeWayne as he has received a scholarship to A&M in Petroleum Engineering.

Laura Taylor, daughter of the Lawrence Taylors, recently returned home from a week's visit with Sabrina Burrus in Childress — had lots of fun.

A happy anniversary to Lancelot Link from Mata Hari. . .

MR. AND MRS. J. C. McCLENDON

McClendons Honored

Mr. and Mrs. J.C. McClendon of 2714 E. 4th Ave., Canyon, were honored Sunday with a reception in the Key Room at Elk City, Okla., in observance of their 50th wedding anniversary.

Hosting the event were the couple's two daughters and son, Mrs. Robert Miller of Baton Rouge, La., Mrs. Forest Bullard of El Paso and Robert McClendon of Dallas.

Presiding at the guest book were Misses Kay McClendon and Doyleen Taylor. Mrs. Jimmy Kauk and Mrs. Doyle Taylor served punch, and Mrs. Gene Colman and Mrs. Doyle Bray served the three-tiered cake.

Guests signed a golden memory book placed on a table centered with a memory candle and decorated with wedding bells.

The table was covered with a dark blue velvet cloth bordered with white wedding bells. Centerpiece was three cherubs holding an arrangement of yellow carnations.

McClendon and the former Miss Opal Quattlebaum were married in Leedey, Okla., on June 26, 1921. They have lived in Randall County for 45 years. They have seven grandchildren.

Program Combines Learning, Enjoyment

Mrs. Lee Reeves is instructing reading in the basic skills segment of the summer enrichment program at Rex Reeves. She and the children are discussing from their "readers". Students pictured are David Layman, Phillip Boehning, Mike Murrell, Mike Morgan, Rodney Barrett, and Timothy Carlisle.

BY JERRY MONTGOMERY

Learning and enjoyment are combined in the summer enrichment program for children at Rex Reeves and Gene Howe Elementary Schools.

"This is a campus-type situation," said Mrs. Hazel Strickland. "Some children have classes earlier than others."

About 250 children are enrolled in the program which includes the basic skills of reading, speech and math, as well as life science, communications media and the program for children with language and/or learning disabilities.

Approximately 45 children in four classes of the communication media segment of the program are reading plays and making puppets for their puppet shows. They recently did "Peter and the Wolf" with face masks.

The communications classes have a lot in store before the summer school program ends next week. They are making a patriotic tape with background music for the fourth of July, said instructor, Mrs. Donna Wilson. In addition two classes are to do "William Tell" together.

All children in the different communications media classes are planning a trip to the Canyon to see "TEXAS" next Thursday. Prior to that time, they will see a make-up demonstration by Claudia Wilson who portrays Kate in the production. David Schuette will also talk to the children about the show.

Teaching the communications media course is Mrs. Wilson and Mrs. Posey Wright, assisted by Mrs. Larry Wisdom, teaching aid.

Life science and the local environment assists the child in developing appreciation for the local cultural and natural resources, Mrs. Strickland said.

The children's study has so far included native animals. Resources used were films, film strips, library books and a visit to the museum. They recently made a field trip to the fish hatchery east of Canyon to see how the fish are fed and caught. Still scheduled for the children is a trip to Palo Duro Canyon to see the various forms of vegetation and wildlife.

James Prock, who teaches the sixth grade at Rex Reeves during the regular school term, is instructing the four sections of the course.

Mrs. Tommy Barrow is the only instructor for the program for children with language and/or learning disabilities. The program is for average or above average children who do not learn in the way most boys and girls learn, Mrs. Strickland explained. By working with the children, instructors hope to find the problems and work with it to bring the children up to potential, or "to bridge the gap between performance and potential," Mrs. Strickland added. The enrichment program currently underway is unlike the pilot program for 6, 9 and 12-year-olds. The enrichment program is for children not those ages.

Four instructors teach the basic skills at Rex Reeves. Mrs. Einell Zevely and Mrs. Lee Reeves teach reading, Mrs. Norma Lambert teaches speech, and Herman Demus teaches math.

Johnny Christopher, son of Mr. and Mrs. Jim Christopher, catches a large catfish from the tank at the fish hatchery east of Canyon during the life science class field trip to the hatchery. Linda Nash, daughter of Mr. and Mrs. Larry Nash, and Agnes Aragon, daughter of Mr. and Mrs. Pete Aragon, weren't too thrilled with the catch.

Bill Murren Named New Assistant Basketball Coach

Bill Murren has been elevated to the post of assistant basketball coach at West Texas State University from his roll this past season as a graduate assistant coaching the freshman team.

Athletic director Gene Mayfield made the announcement Wednesday afternoon.

Murren replaces Lonnie Nichols, who resigned recently to become head basketball coach at Tarleton State College.

The 36-year-old Murren played for head Buffalo basketball coach Dennis Walling at Decatur, Texas Baptist College and earned Junior College All-American honors.

Murren, whose hometown is Atlantic City, N.J., played service basketball at Fort Meade, Md., prior to enrolling at Decatur Baptist College in 1960.

During his sophomore season (1961-62) at Decatur, he earned all-state and All-American honors, was most valuable player in the Howard County Christmas Tournament and was team tri-captain.

He scored over 1,000 points in his two years of playing for Walling. While at Decatur, he played forward and post man. At Texas Tech he was a ball-handling guard.

Murren started two years for Texas Tech (1962-64) and averaged 10 points per game over the two-year period. He graduated from Tech with a B. A. degree in business in 1964. He attended Tech for one more year to receive his teaching certificate. He is slated to receive his master's degree this summer from West Texas State.

He did his practice teaching in the Lubbock public school system and was then head basketball coach at Coronado High School in Lubbock for three years prior to taking the freshman coaching job at West Texas.

Coronado had a 16-14 record under Murren his first season and fared 14-16 the following year. In his final season Coronado had a 10-21 mark, despite the fact three senior starters were injured to became ill just prior to the start of the season. In that third year Coronado was picked eighth in the district, but finished seventh in the first half of division play and fourth in the second half.

In two years of coaching service ball teams, Murren had a 22-2 record and he guided intramural teams at Tech to a 26-3 mark.

Murren and his wife, the former Margaret Sims of Fort Worth, have no children.

John Durran Speaks At Math Institute

John Hunter Durran, head of the Math Department at Winchester College in Hampshire, England, will be guest lecturer July 6-7 at a National Science Foundation Summer Institute in Math underway at West Texas State University.

Some 43 secondary math teachers from throughout Texas will be attending the eight-weeks course.

Dr. H.L. Cook, math department head at WT, is director of the institute, assisted by Fletcher Moseley and David Lasher.

Classes are held during the mornings and seminars are conducted each afternoon. Emphasis is being placed on modern geometry and modern algebra.

Durran is being sponsored by the American Association for Advancement of Science in the visiting foreign scientist project.

Attending from Canyon are Jerry Woods and Lua B. Patrick.

He was born Sept. 6, 1929, and attended Jesus College in Cambridge where he received his BA degree in 1953. He earned his M.A. from the same school in 1960.

The lecturer was head of the math department in Sedbergh School in Sedbergh, Yorkshire, England, from 1953-59 and then was assistant master from 1960-67 at Winchester College in Winchester, England.

He has served in his present position since 1967.

The visiting professor has been awarded a Foundation Exhibition from Jesus College, and was appointed to a Commoner Fellowship in Jesus College. He was also elected as a Fellow of the Institute of Math and its Application.

recognized as the taxable valuation. The schedule does not allow depreciation.

Commissioner Bill Butler made the motion and the dissenting vote was cast by Commissioner Dowlen.

"I have some strong feelings about that," Dowlen commented.

Commissioners gave District Clerk LaQuitta Palvodore permission to hire two temporary typists to help prepare the jury wheel which must be completed by Aug. 15. Members of the court discussed a shelf file system for the county clerk's office and discussion of job descriptions for county employes was delayed until a future meeting.

Lumber Taken From Complex

Around $500 in lumber was taken from the Canyon Creek Apartments in Hunsley Hills Tuesday night, according to Dave Williams, assistant manager of the Panhandle Engineers and Contractors Inc., owners and builders of the project.

Canyon police said the lumber had apparently been removed from the property after the working day.

"People don't realize that we use that material," Williams explained, "but we use all of it. It is private property and we take this very seriously."

Williams urged that persons unauthorized should not be on the property until the project is open to the public later this year.

Final Rites For Woman

Funeral services for the mother of Doug Rittenberry of Canyon will be conducted this afternoon at 2 o'clock in the Colonial Chapel at Schooler-Gordon Funeral Home in Amarillo.

Dr. Winfred Moore, pastor of the First Baptist Church in Amarillo will conduct the services. Burial will follow in Llano Cemetery. Funeral arrangements were made in Canyon by LaGrone Funeral Chapel.

Mrs. Lolus Olive Rittenberry died in LaCasa Canyon Convalescent Home in Canyon early Wednesday morning. She had resided there for six months.

She was born in Williana, La., Feb. 21, 1898. She and her husband Charles B. Rittenberry, who died Feb. 14, 1966, had resided in Amarillo since 1920.

She was a member of the Amarillo First Baptist Church.

Survivors include her son Doug of Canyon; one daughter, Mrs. Jack Gouldy of Amarillo; three sisters, Mrs. John R. Mullins of Clarksdale, Miss., Mrs. M.M. Wells of Greenville, Miss., and Mrs. S.R. Hogaboom of Houston; one brother, William Smith of Port Arthur, and five grandchildren.

Going somewhere? Or been? The Canyon News wants to know about it--and so do its readers.

Children in the communications media classes of the summer enrichment program at Rex Reeves have been making puppets and giving puppet shows. Pictured with their puppets are, left to right, Charles Kuehn, James Rainey and Bret Faussauer. They are the sons of Mrs. Ed Kuehn, Mr. and Mrs. Steve Northam and Mr. and Mrs. Bud Faussauer.

on. "Now would be a wonderful time for citizens to demand that the windows be opened and good government be allowed to prevail."

Christian reported that there are 10 people in the race for speaker of the house but actually only three serious candidates, these being Rayford Price, Price Daniel, Jr., and the present speaker.

Christian says he is supporting Rayford Price and his only promise from the candidate is a promise of good government and some badly needed reforms.

Christian recommends streamlining of the legislature and reduction of the 46 committees to perhaps 25.

In a question and answer session, Christian responded to Dr. Dudley Moore saying the 62nd legislature did not meet its responsibilities in the field of welfare.

"It is way past time to overhaul the welfare bill," Christian declared. "We're going to have to set the whole thing aside and start over. Money is not going to solve it.

"We never worked on an abortion bill. There were many areas we did not get into. We spent a lot of time in liquor by the drink. People were told the state would make money on liquor by the drink but we're not going to make any money on it."

On redistricting, Christian said that if the new redistricting bill is constitutional then it would be impossible to write a bill that is unconstitutional.

"I don't feel the Panhandle was treated fairly," he said. "The Panhandle lost two representatives when it should have lost only one."

Returning to Heatly and Mutscher as he closed, Christian said he received a telephone call in 1970 asking him to ask one of Heatly's opponents for re-election to get out of the race.

"I don't think he will be appropriations chairman again," Christian declared.

The Claude representative branded both the speaker and Heatly as vindictive men quick to take reprisals.

"He rules by fear," the Claude Republican said of Mutscher.

Eagles Defeat Three Teams In Softball

Canyon VFW Eagles girls softball team defeated Bonham Junior High 9-6 June 21 in Amarillo. Winning pitcher was Rhonda Umberson.

Virginia Branstetter was outstanding player and true home run was by Penny Peckenpaugh.

The team also defeated Crockett, 27-2 in Amarillo Monday, and Wesley Community Center 20-6 here Tuesday. Winning pitcher for both games was Rhonda Umberson. Outstanding players for the games, respectively, were Si Morris and Zadie Caldwell.

True home runs were hit by Penny Peckenpaugh, Connie Davis and Carla Swatzell for the Crockett game, and by Penny Peckenpaugh, Carla Swatzell, Connie Davis and Georgia Branstetter for the other game.

Upcoming games include Canyon versus Bowie today, Canyon versus St. Joseph Friday, and Canyon versus Horace Mann Monday. All those games will be at home field in Canyon.

diamonds, or like in Canyon band kids need to go to Vienna," he says. "Those are projects that Rotary Club members could make go, if they would just get to working."

His official visits to each club in the district will include a talk with the president and secretary of each club, a session with club officers and a meeting with club committee chairmen.

Through these talks, Carruth will view the club's activities and see what the group is doing, and has planned for the future.

"This is the reason for the official visits," he believes. "I can look at the clubs, and if they need help, then I can recommend the committee chairman within the district who could help them get started in the right direction."

The next year will be a challenge to this man who has already faced many challenges.

He was born in Vernon in 1931 and graduated from Canyon High School before attending Texas A&M one year. He returned to Canyon to enroll in West Texas State and graduated in 1952. The same summer he married Norma and 16 days later, the groom was on his way to Korea for a year.

"I had no earthly idea what I wanted to do," he recalls.

But at the end of that year he had the GI bill and decided to get his masters degree.

"And I had decided to go into the school teaching business."

In 1955 he received his masters degree, and then went to Kermit as a history teacher. He still had some of the GI bill remaining so he decided to obtain a doctorate degree. In the summers he enrolled at Texas Tech and took a year's leave of absense and in August 1959, he was awarded his doctorate degree from Tech.

"I was standing in the hall at Tech trying to decide what to do, when a fellow I had known at WT walked by," he reminesces. "We shook hands, he asked me what I was doing, and then he told me a position might be open at WT."

And that fellow, Emmitt Smith, had not been wrong. Dean Mitchell Jones did need an assistant and Paige got the job.

That was in 1959, and in 1960 Paige joined the Rotary Club in Canyon.

The club had the distinction of providing two district governors through the years. Dr. Harris M. Cook, dean of men at WT, had served in that position in 1944-45, and Herschel Coffee was district governor in 1953-54.

Four years after he joined the club, Paige was elected president serving meanwhile as editor of the weekly bulletin, a club director, chairman of various committees and vice president.

He took up flying in August of 1968, because as he says, "I was spending most of my waking hours in a car."

At that time he was making speeches throughout the area for the university, and he realized if he was going to see his family at all he must find a faster way to travel.

And travel he will do. The flying governor, his wife and his plane will use a runway, that is near his home south of Canyon, almost daily.

And between trips, Paige and his wife will spend those extra hours with their five children, Alan, 17, Jerri, 14, Joe, 12, Tommy 9, and Melissa, 6.

Airman Si M. Bosley III, son of Mr. and Mrs. S. M. Bosley of 1605 9th Ave., has completed basic training at Lackland Air Force Base in San Antonio. He is remaining for training as a security policeman.

Bosley is a 1969 graduate of Canyon High School and attended West Texas State University. His wife is the former Miss Peggy Bible of Canyon.

Rex Taylor Receives Promotion To Captain

Rex E. Taylor has recently been promoted to Air Force captain at Sandia Base, in Albuquerque, N.M.

Capt. Taylor is an administrative officer in the Field Command, Weapons Development at Sandia Base, a joint service base.

He has been in the Army for nine years. Prior to his present position he served as Deputy Chief, Base Activities Division of Headquarters at Sandia Base.

Mrs. Taylor, the former Miss Linda Salmon, is the daughter of Mr. and Mrs. Marvin Salmon of Canyon. The couple has a son, Rex Jr., 16 months.

A native of Millville, New Brunswick, Canada, Taylor is the son of Mr. and Mrs. John E. Taylor of that city. He has a master's degree in business education from West Texas State University where he was commissioned in 1967.

Dick Ratjen's Old Paint Is 'Horse Of Different Color'

BY JERRY MONTGOMERY

You've heard the old saying, "Now that's a horse of a different color." Well, Dick Ratjen has one of a kind.

That horse, J., looks as if he stood hock-high in a black paint creek while someone slung white and honey-brown paint at him. And he has a combination mane and tail of black and white.

J. Mariner or Old Paint, as Ratjen calls him, was born 13 years ago on the Birdwell Ranch. He was "outlawed" so they traded him off. Jay Mariner bought him and called him Comanche but was never able to do much with him. So Ratjen bought him and a week later took him to McLean for a rodeo. Seven different cowboys roped off him and Ed Workman won the saddle. And Comanche-turned J. became a star without any formal training. "He's just a natural," Ratjen smiled.

As with many of the other horses Ratjen owns, J. "just took a likin' to me." Ratjen has never had any trouble with him.

J. has never had any formal training of any kind. But he has such a liking for his master that wherever Ratjen wanders within eyesight of the horse, J. watches.

And that's why people question Ratjen about the horse's training. The horse was recently used in pictures for publicity for the upcoming sound and light production "They Came From Spain" in Palo Duro Canyon. Ratjen would change positions and call to the horse. J. would look at him and hold the position for as long as Ratjen stood there.

Not only has the tri-colored equine been used to rope and tie steers, but also wild burros. Ratjen and a friend took their horses to the Albert Mitchell Ranch in New Mexico one year to help rope the burros running wild on the ranch. Mitchell had never bothered the burros until they began causing problems for his cattle.

Ratjen estimated 80 head of burros wandering wild on the ranch. Of the 37 roped and tied, Ratjen claimed 13. Each man was "lucky" enough to get to keep the ones he roped. Ratjen still has one that wanders around with his "remuda" of paints.

Later Ratjen took the burros and went to a donkey roping contest in Texline. That's where he got the distinguished title of World Champion Donkey Buster.

At a steer roping contest in Artesia, N.M., Ratjen received the fastest time on his untrained paint. The horse has been used for just about every type of rodeo competition, Ratjen said. A boy who worked for Ratjen once wanted to calf rope at a rodeo but didn't have a horse so he rode J. who had never been used for calf roping before. "They won fourth in average," Ratjen laughed.

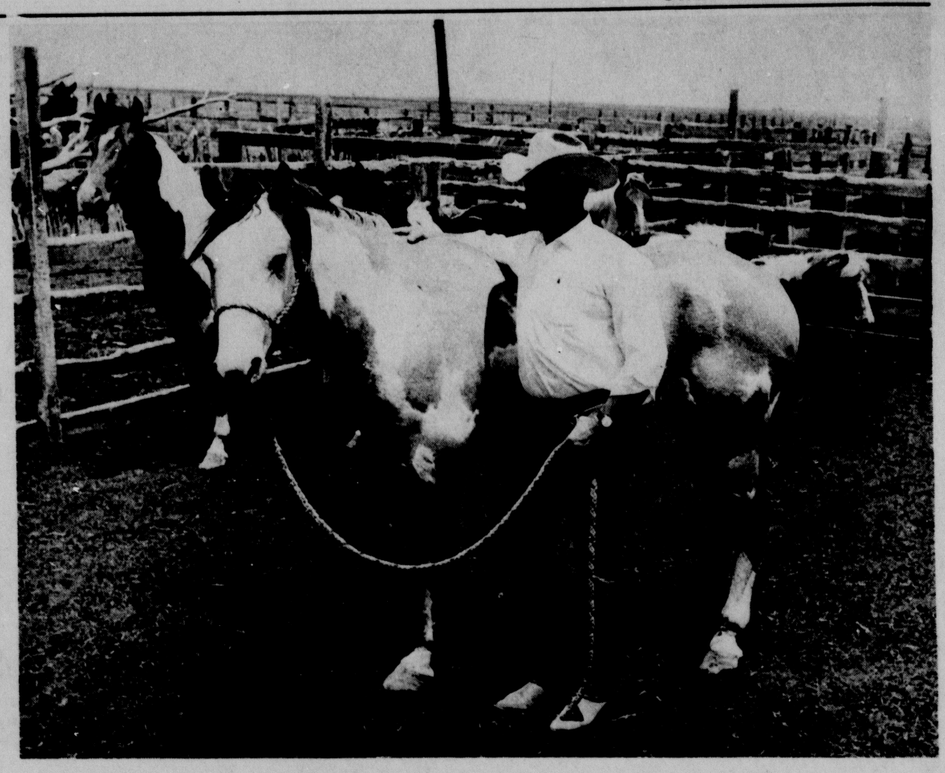
J. can't be ridden in competition anymore since he was crippled a few years back. He ran through a fence and had more than 800 stitches in his right foreleg. A large chunk of muscle has been removed from the leg making it difficult at first for J. to walk. He has a bit of a straight edge on the right side of his hoof where he has a tendency still to drag it a little.

J. found out he could walk by stiffening and swinging that leg out, Ratjen said. "So I put some chain on the leg down by the hoof and soon be began picking it up a little better. So I put a little more chain and now he does real well with that leg."

Ratjen is proud of the horse and has a special liking for paints. A a matter of fact, the first horse he ever had was a paint named Molly. That was when he was four years old.

"You've got to have control to get a horse to respect you," he said. "J. doesn't like anybody that doesn't know how to ride him," he added.

Ratjen talks of horses a little as if they're children. A lot of psychology used is the same and "he gets a spankin' every once in a while."



Dick Ratjen and J. stand amid Ratjen's "remuda" of paint horses. Ratjen has a liking for paints and has owned J. for seven years. The horse is at least three different colors.

New Owners Take Motel

New owners and managers have acquired the Trail Motor Hotel in Canyon.

Delbert and Joy Runyan of Nebraska officially purchased and occupied the motel June 14, along with their two children, Vickie, 11, and John, 8.

The Runyans have had three years' previous experience in motel management. They operated a 16-unit motel in Thedford, Nebraska, before moving to Canyon.

"We sold our motel and were seriously looking for another place," Mrs. Runyan explained.

They heard of the Canyon motel and decided to take it after visiting the city, schools and the business community.

The 37-unit operation just south of Canyon on the Lubbock highway, has rates of $8 for a single to $16 for a family of four.

New green sculptured carpeting is in the units with accentuating drapes and bedspreads.

Each room has a television, room telephones, ceramic tile baths with tubs and showers, and is cooled with central refrigerated air conditioning and heated with central hot water heat.

One deluxe suite consists of two bedrooms and a sitting room, and four units have queen size beds and color televisions.

A swimming pool is accessible to each room.

The public is invited to tour the motel at any time between 7 a.m. and 11 p.m.
